

# Study Guide: Meteorology

Remember, most of the questions will be reworded.

1. If the sky is clear at night, the temperature will tend to cool \_\_\_\_\_.  
(A) slower                      (B) faster
2. A barometer indicates the \_\_\_\_\_.  
(A) wind speed                      (B) air pressure
3. When water changes from gas to a liquid, it is called \_\_\_\_\_.  
(A) condensation                      (B) evaporation
4. Meteorology is the study of \_\_\_\_\_.  
(A) weather in the earth's atmosphere  
(B) meteorites falling to earth
5. The blanket of air that surrounds the earth is called the \_\_\_\_\_.  
(A) troposphere                      (B) atmosphere
6. The ozone layer in the earth's atmosphere protects us from \_\_\_\_\_.  
(A) ultraviolet rays                      (B) infrared rays
7. a violent ~~storm~~ storm that has a calm "eye" in the middle is called a \_\_\_\_\_.  
(A) nimbus                      (B) hurricane
8. Which of the following is a form of precipitation?  
(A) conduction                      (B) rain
9. A very important source of information for predicting weather is the \_\_\_\_\_.  
(A) satellite                      (B) radio
10. Which cloud type usually means fair weather?  
(A) cumulus                      (B) cirrus
